Encounter by Ongava

Location: Ongava Game Reserve (southern boundary of Etosha National Park), Namibia
Formerly Ongava Tented Camp

Encounter by Ongava marks the refined new chapter of Ongava's classic tented safari camp. Set within a secluded valley at the foot of a dolomite hill, the camp sits lightly in the landscape, where wildlife moves freely through camp and the rhythms of the bush shape each day.

Ongava Game Reserve is one of Namibia's leading conservation success stories - a reserve restored with patience and purpose, where protection and presence exist in balance. Encounter reflects this ethos. It is not about spectacle or excess, but immersion. Guests are not positioned at a distance from nature; they are placed within it. Open-air showers, private decks and uninterrupted views create a safari experience that feels immediate, grounded and deeply connected to the wild.

This is classic safari redefined with intention - intimate, authentic and conservation-led.

Highlights & USP's

- Strong conservation legacy and recognised wildlife sanctuary
- Secluded valley setting at the foot of a dolomite hill
- Wildlife moves freely through camp - immersive, unfiltered experience
- Nine spacious tents with private decks and open-air showers
- Classic safari atmosphere with understated luxury
